

# Trunkquility 2-way loudspeaker

## Model 2.0

This smallest passive loudspeaker model of the Trunkquility series allows only lower volumes due to its small size. Nevertheless the small size of the membranes enable a very fast response even to the most complex music programs, resulting in a very alive and bright sound reproduction over the whole frequency range. For small to mid-size rooms. Lower volume does not refer to background-music level: with a maximum sound pressure level far over 90 dB @ 1 W @ 1m you can enjoy a grand orchestra, but you are not sitting in the first row.

### Passive 2-way loudspeaker

Crossover frequency:	2,500 Hz
Efficiency:	87 dB / 2,83 V @ 1 m
Power handling:	50 W contin. (IEC 268-5)
Amplifier load:	4 $\Omega$ Impedance
Dimensions (H x D):	ca. 44 x 23 cm (deviation possible; loudspeaker pairs always have the same height)
Weight:	ca. 8 kg
Drivers:	118 mm bass/mid-driver with glass fibre cone ( $\pm$ 3 mm linear displacement and 32 mm voice coil) in vented cabinet, 22 mm high-frequency dome driver
Cabinet:	Made of massive wood trunks. Different domestic wood-types are possible: e.g. birch, oak, Beech, pine, Douglas fir
Production time:	ca. 60 hours
Price:	€ 4,400,-- per pair incl. VAT (in beech)
